

Junkpunch bio

Hailing from the Denville, NJ area, Junkpunch plays hard-rock and punk influenced originals peppered with an eclectic assortment of cover material. The band formed during a post college party in 2003 where the members discovered that they each shared a desire to play original rock music. The next day, when the hangovers subsided, the four got together and Junkpunch was born.

Since that first afternoon Junkpunch has amassed stage experience playing various parties and bars in the area, most notably being tapped as the house band for the Indian Lake Community Club Comedy Night 2005 and 2006. In March of '06 they were featured as Rothstein Custom Guitars' Artist of the Month and also released their first original EP "It's a Junkpunch Christmas". The boys plan on recording a follow up EP by the end of '06. Currently, Junkpunch is looking for venues to showcase their music in the Northern NJ and NYC area. 09/06
